start your child's
enrollment!

About Us

Wittenberg Lutheran Preschool provides sensory-rich, safe, nurturing classes for young children. The children have group experience under the supervision of Christian teachers well-educated in child development.

Wittenberg provides three years of varied curriculum for children ages 2-1/2 to 5 years. We are currently taking enrollment for 3 year-olds. The program offered at the school emphasizes the key areas of development in a young child, as well as various extracurricular activities such as music and movement.

Wittenberg Lutheran Preschool is a non-discriminatory, Christian school. The school admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school.
